The period covered by the agreement is from March 15, 2023 through December 31, 2024. - Your project may require one or more professional service agreements.** A grantee who subcontracts or hires an agent to undertake any portion of a project requiring more than \$5,000 of grant funding awarded shall enter into a professional service agreement with the contractor or agent prior to the commencement of any contracted work using the attached Professional Service Agreement, Form 8700-379 or a substantially similar document.
- Your project may require one or more cost containment procedures.** A grantee shall implement cost containment measures for all purchases made with grant funds that exceed \$2500. The grantee must identify the cost containment procedure used when requesting reimbursement. Refer to program guidance for acceptable cost containment procedures.
- Your project includes the analysis of water.** If the Wisconsin State Lab of Hygiene (WSLH) is processing your water samples: The DNR has provided the WSLH with a copy of the Surface Water Grant Lab Costs form that you submitted with your application. The form provides all the necessary information the lab will need to set up your account. If the WSLH needs any further information, they will contact you. The DNR will send you a final copy of the Surface Water Grant Lab Costs form that will identify your WSLH Client ID, Grant Project number and DNR Lake/River Coordinator information. Be sure to include this information on all materials you submit to the lab. The DNR will provide a test request form for you to use when sampling. Once your samples are processed, you will pay the lab directly and request reimbursement for lab costs through the grant program. If you were approved to use a certified lab other than the Wisconsin State Lab of Hygiene: Please contact your lab directly to set up an account.

If you have questions regarding this aspect of your grant, please contact your AIS Coordinator above.

- Your project includes the use of donated labor as part of your local share.** As your project progresses you must document all volunteer labor and/or professional labor by keeping a log of the person's name, the date the work is performed, a description of the work performed, the number of hours and rate of pay per hour (including benefits for professional hours). Attached are sample worksheets and summary sheets for your use. Please make, as many copies from these blank sheets as you think will need for the project. Tracking hours by computer is accepted.
- Your project includes the use of donated materials or equipment as part of your local share.** You must carefully track all donations with documentation that is equal to an invoice in their normal business dealings but clearly marked as donations. All donations shall conform to market rates. This documentation must be included with the payment request form.
- If your project includes GIS data, it should be in a format fully compatible with ARC/INFO[®] and ArcView[®].** If you have any questions about this format or the standards, please request more information from Scott Van Egeren or Jill Sunderland.

You may be contacted by the Office of the Governor or your state Legislator concerning the issuance of a press release to publicize the grant award. The Department of Natural Resources is pleased to have the opportunity to participate with you in this grant project.

Sincerely,
